

VueKumi Country Activation Matrix

Print-friendly PDF edition of the September 19, 2026 operational workbook. African contributors only; global buyers subject to applicable laws and payment restrictions.

DRAFT • No country has been legally cleared or activated. Counsel and operational vendors must complete required reviews before launch.

01 | Dashboard and operating rules

Operational metric: Current status

African countries in register: 54

Country legal gates: 16

Countries ACTIVE: 0

Countries HOLD: 54

Jurisdictions with initial source notes: 7

Country approvals signed: 0

Mandatory gate completion rate: 0

Key operating rules

ALL countries start HOLD. Research notes are not legal clearance or activation approval.

Only Africa-based contributors may register; global buyers remain permitted subject to local law and sanctions.

Country ACTIVE requires 16 documented gate completions + evidence link + approval signed.

Rights verification: copyright and likeness are separate; identity match is not ownership or consent.

Country requirements must include local subject privacy, biometric and international transfers.

Buyer Overlay must be reviewed for targeted non-African markets (e.g., EU/UK).

Review this workbook with qualified counsel and your payment/ID vendors before activating any market.

02 | African country register

All 54 countries are on HOLD. In the source workbook the 16 individual legal gates are each Pending for every country; the table below consolidates those repeated gate fields into “0 of 16 complete” for print readability. Empty reviewer, review-date and evidence fields remain unassigned.

Country	ISO	Region	Review wave	Gates	Status
Algeria	DZ	Northern Africa	Future review	0/16	HOLD
Angola	AO	Middle Africa	Future review	0/16	HOLD
Benin	BJ	Western Africa	Future review	0/16	HOLD

03 | Country activation gates and required evidence

Every country must document all 16 requirements, its evidence location and a signed approval before its activation state can change. The gate descriptions below reproduce the workbook's review framework in a readable format.

01. Copyright

Meaning of Complete: Local copyright ownership / commissioned image / moral-rights / agency rules reviewed

Minimum evidence artifact: Counsel memo + approved contributor terms + work-for-hire exception logic

Responsible role: IP counsel

Recheck trigger: Law change; new license tier

Cross-reference: G

02. Likeness / release

Meaning of Complete: Model personality/publicity/privacy permissions and enforceability validated

Minimum evidence artifact: Approved model release, scope/withdrawal policy, counsel memo

Responsible role: IP / privacy counsel

Recheck trigger: New use or release wording

Cross-reference: H

03. Image roles / license

Meaning of Complete: Model-uploads / photographer-uploads / self-shot / third-party rights and releases mapped

Minimum evidence artifact: Rights-state map + contributor clickwrap and uploader attestation

Responsible role: Legal + product

Recheck trigger: New uploader role

Cross-reference: I

04. Privacy lawful basis

Meaning of Complete: Nonmember contact-data acquisition and rights invitations justified

Minimum evidence artifact: Lawful basis memo + notices + deletion/objection playbook

Responsible role: Privacy counsel

Recheck trigger: New purpose/contact channel

Cross-reference: J

05. ID / biometrics

Meaning of Complete: Permissible government ID + one-time face check, consent, manual review and vendor deletion validated

Minimum evidence artifact: Privacy impact assessment + vendor DPA + deletion test + fallback

Responsible role: Privacy + security

Recheck trigger: New ID provider/face model

Cross-reference: K

06. Cross-border transfers

Meaning of Complete: US storage, ID/SMS subprocessor countries and cross-border authorization validated

Minimum evidence artifact: Data-flow map + transfer mechanism/permit + vendor locations

Responsible role: Privacy counsel

Recheck trigger: New hosting/subprocessor

Cross-reference: L

07. Registration / DPO

Meaning of Complete: Required local regulator registrations or exemptions determined and completed

Minimum evidence artifact: Registration cert / exemption opinion + DPO decision

Responsible role: Legal operations

Recheck trigger: Scale/threshold change

Cross-reference: M

08. Minors / guardian

Meaning of Complete: Age-of-majority, legal guardian proof, youth image marketing restrictions resolved

Minimum evidence artifact: Minor workflow + release + legal memo

Responsible role: Legal + trust/safety

Recheck trigger: Age policy change

Cross-reference: N

09. Notices / outreach

Meaning of Complete: Direct email/SMS consent invitations and restrictions locally compliant

Minimum evidence artifact: Invitation scripts + messaging consent/opt-out procedure

Responsible role: Privacy + marketing counsel

Recheck trigger: New outreach channel

Cross-reference: O

10. E-sign validity

Meaning of Complete: Electronic contracts, audit logs, identity proof and consent validity reviewed

Minimum evidence artifact: e-sign opinion + consent audit schema + signature test

Responsible role: Legal + engineering

Recheck trigger: New signature technology

Cross-reference: P

11. Sanctions screening

Meaning of Complete: US sanctions/PEP/ownership/routing assessed; payment restrictions handled

Minimum evidence artifact: Screening SOP + vendor contract + escalation log

Responsible role: Compliance

Recheck trigger: List update/transaction

Cross-reference: Q

12. Payout availability

Meaning of Complete: Local payment rail, currency, recipient verification and chargeback rules confirmed

Minimum evidence artifact: PSP written country support + test payout + payout terms

Responsible role: Finance + PSP

Recheck trigger: PSP/FX change

Cross-reference: R

13. Withholding / tax

Meaning of Complete: Payee tax forms, character/source, W-8, 1042-S and local obligations reviewed

Minimum evidence artifact: U.S. tax memo + payee classification + tax/payroll partner signoff

Responsible role: Tax counsel / CPA

Recheck trigger: New payee/type/market

Cross-reference: S

14. Contract / choice of law

Meaning of Complete: Texas/U.S. terms enforceable subject to mandatory local law; consumer/contributor protection checked

Minimum evidence artifact: Redlined local addendum + enforceability opinion

Responsible role: Local counsel

Recheck trigger: Terms amended

Cross-reference: T

15. Buyer territorial issues

Meaning of Complete: Rights limitations by worldwide buyer location/use and territorial use recorded

Minimum evidence artifact: Buyer-use restriction matrix + license coverage + escalation rule

Responsible role: IP counsel + product

Recheck trigger: New territory/use

Cross-reference: U

16. Local counsel review

Meaning of Complete: Qualified country-specific legal signoff completed and documented

Minimum evidence artifact: Dated written counsel signoff with scope, exceptions and expiry

Responsible role: Country counsel

Recheck trigger: Annual / legal change

Cross-reference: V

04 | Initial country-specific research

Research below is issue-spotting only, not a legal opinion or proof of country activation. Review the linked authority sources and obtain jurisdiction-specific legal advice for the actual VueKumi architecture.

Nigeria

Authority / source: Nigeria Data Protection Commission

Verified public-source observation: Nigeria Data Protection Act 2023 and NDPC guidance apply to personal-data processing; major-importance registration categories may be relevant.

Required VueKumi determination: Confirm extra-territorial scope, registration category, legal basis for third-party invitation, ID/face matching, cross-border hosting and local e-sign.

Gate(s): J,K,L,M,O,P

Public-source URL: <https://ndpc.gov.ng/faqs/>

Review status: Issue spotting only

Ghana

Authority / source: Ghana Data Protection Commission

Verified public-source observation: DPC states controllers intending to process data must register under Act 843; published guidance discusses safeguards and notice.

Required VueKumi determination: Determine nonresident platform registration duties, ID/face processing, indirect contact lawful basis, transfers and rights.

Gate(s): J,K,L,M,O

Public-source URL: <https://dpc.gov.gh/for-organisations/>

Review status: Issue spotting only

Kenya

Authority / source: Office of Data Protection Commissioner

Verified public-source observation: ODPC states nonresident entities processing Kenyan residents' data may need registration, including nonexempt processing categories.

Required VueKumi determination: Obtain local opinion on registration/exemption, facial biometrics, transfer safeguards, contact notices, consent and minors.

Gate(s): J,K,L,M,N,O

Public-source URL: <https://www.odpc.go.ke/faqs/>

Review status: Issue spotting only

South Africa

Authority / source: Information Regulator / POPIA

Verified public-source observation: POPIA contains special-personal-information and cross-border transfer rules; evaluate applicability to VueKumi's exact biometric and hosting flow.

Required VueKumi determination: Confirm law applicability and registration/notification, identity-vendor safeguards, biometric conditions, retention and cross-border transfer.

Gate(s): J,K,L,M,N

Public-source URL: <https://infoeregulator.org.za/>

Review status: Issue spotting only

Rwanda

Authority / source: Rwanda Data Protection & Privacy Office

Verified public-source observation: Regulator describes registration and restrictions on overseas storage/transfer; foreign controllers of residents' data can be in scope.

Required VueKumi determination: Determine registration, overseas US hosting authorization, vendor access, identity/biometric permissions before any local onboarding.

Gate(s): J,K,L,M

Public-source URL: <https://dpo.gov.rw/faqs>

Review status: Issue spotting only

Morocco

Authority / source: CNDP

Verified public-source observation: CNDP describes overseas-transfer restrictions and filing/authorization process; underlying processing authorization may be needed.

Required VueKumi determination: Determine filing/authorization, correct transfer route to US/ID vendor, biometric processing requirements and language disclosures.

Gate(s): J,K,L,M,O

Public-source URL: <https://www.cndp.ma/transfert-de-donnees-a-letranger/>

Review status: Issue spotting only

Egypt

Authority / source: Egypt Personal Data Protection Center

Verified public-source observation: Regulator describes Law 151/2020 and 2025 executive regulations governing electronic personal-data processing and transfers.

Required VueKumi determination: Confirm permits, international transfer, biometric ID checks, communications rules, regulator guidance and Arabic notices.

Gate(s): J,K,L,M,O

Public-source URL: <https://www.pdpc.gov.eg/>

Review status: Issue spotting only

05 | Identity, invitation and rights-clearance workflow

Step 1 | Image uploaded

Action: Run person detection; infer no sensitive identity traits from appearance

Required explicit choice: Uploader identifies each subject or marks unknown

Evidence to retain: Image ID; model-count flag; model version

Commercial gate: LOCKED pending image rights

Privacy rule: Detection ≠ identifying the person

Step 2 | Photographer names model / model names photographer

Action: Verify email/mobile delivery; send limited rights invitation; no public account

Required explicit choice: Recipient accepts review, declines, or reports wrong person

Evidence to retain: Invitation purpose, sender, channel, delivery, refusal

Commercial gate: LOCKED

Privacy rule: No marketing enrollment; minimize indirect-source details

Step 3 | Person accepts rights review

Action: Give stand-alone ID/privacy notice and lawful basis; obtain consent for face-matching where required

Required explicit choice: Proceed with government ID + liveness, or permitted manual fallback

Evidence to retain: Consent version; provider transaction ID; exception outcome

Commercial gate: LOCKED

Privacy rule: Vendor data mapping; ephemeral biometric template; country gate

Step 4 | Identity provider returns result

Action: Confirm identity and image match; send uncertain cases to manual reviewer

Required explicit choice: Model/photographer confirms identity and controls relevant rights

Evidence to retain: Pass/fail; review decision; ID issuing country as needed

Commercial gate: LOCKED

Privacy rule: Delete ID/selfie/templates under fixed retention and vendor SLA

Step 5 | Subject reviews actual assets

Action: Show image-specific or shoot-specific copyright/likeness release and allowed uses

Required explicit choice: Approve, reject, or request restriction

Evidence to retain: Asset IDs; release exact text/version; timestamp; e-sign

Commercial gate: CLEAR only after all required rights

Privacy rule: No consent inferred from identity result

Step 6 | Account option after review

Action: Offer nonmember rights-holder record OR Africa-qualified contributor account

Required explicit choice: Separate explicit account registration and contributor terms

Evidence to retain: Account election; eligibility evidence if joining

Commercial gate: Unchanged by account decision

Privacy rule: Never auto-convert contact to public user

Step 7 | Later dispute / withdrawal

Action: Suspend affected NEW licenses when rights dispute; preserve historic license ledger

Required explicit choice: Review claimant evidence; honor lawful withdrawal prospectively

Evidence to retain: Prior licenses; freeze/takedown record; resolution log

Commercial gate: DISPUTED / LOCKED

Privacy rule: Minimize records while preserving required legal evidence

06 | Global buyer market overlay

United States

Buyer access policy: Allowed subject to risk screening

Privacy and buyer safeguards to confirm: U.S. consumer privacy, age-appropriate access, state biometric/privacy where applicable

Content license issues: DMCA, publicity/endorsement and content licensing; applicable sales tax

Status: Review required

Source URL: <https://www.copyright.gov/512/>

EU/EEA

Buyer access policy: Allowed where compliant, not blanket-exempt

Privacy and buyer safeguards to confirm: GDPR extraterritorial scope where offering services to people in EU; transfer/cookies, representative if triggered

Content license issues: Consumer transparency, model image use and EU copyright/moral rights

Status: Review required

Source URL: https://www.edpb.europa.eu/our-work-tools/our-documents/guidelines/guidelines-32018-territorial-scope-gdpr-article-3-version_en

United Kingdom

Buyer access policy: Allowed where compliant

Privacy and buyer safeguards to confirm: UK GDPR territorial scope and age/cookies/marketing compliance if targeted

Content license issues: UK copyright/personality and consumer rights assessment

Status: Review required

Source URL: <https://ico.org.uk/>

Other buyer markets

Buyer access policy: Allowed subject to screening and applicable law

Privacy and buyer safeguards to confirm: Local buyer privacy/consumer/e-commerce rules reviewed before targeted campaigns

Content license issues: Country-dependent buyer license and acceptable-use limits

Status: Review required

Source URL: <https://ofac.treasury.gov/sanctions-programs-and-country-information>

07 | Launch implementation action log

US entity

Implementation requirement: Confirm which actual legal entity operates site, contracts, pays contributors, grants buyer licenses

Dependency: Company documents

Evidence / completion test: Entity/DBA ownership map signed

Status: Open

Source / reference: <https://www.copyright.gov/512/>

DMCA

Implementation requirement: Register valid designated agent and publish takedown/counter-notice & repeat-infringer policy

Dependency: Legal entity

Evidence / completion test: Registration receipt; public information matches entity; renewal diary

Status: Open

Source / reference: <https://www.copyright.gov/dmca-directory/faq.html>

Privacy

Implementation requirement: Map nonmember intake, consent, ID provider, media hosting, processor locations, deletion & data rights

Dependency: Confirmed vendors

Evidence / completion test: Approved records of processing + privacy notices + signed DPAs

Status: Open

Source / reference: <https://www.odpc.go.ke/faqs/>

Face match

Implementation requirement: Choose ID vendor with one-time biometric matching, liveness, country support, manual-review fallback

Dependency: Privacy impact assessment

Evidence / completion test: Independent deletion/retention audit and vendor contractual restriction

Status: Open

Source / reference: <https://www.ftc.gov/news-events/news/press-releases/2021/01/california-company-settles-ftc-allegations-it-deceived-consumers-about-use-facial-recognition-photo>

Rights contract

Implementation requirement: Distinguish copyright licenses, model releases, account registration and third-party rights claims

Dependency: Counsel rights map

Evidence / completion test: Test photographer upload / model upload / self portrait / crowds / minors

Status: Open

Source / reference: <https://www.copyright.gov/engage/photographers/>

Payment/tax

Implementation requirement: Obtain PSP-supported African payout countries; W-8 flows; 1042-S classification/source and remittance determination

Dependency: Tax + finance review

Evidence / completion test: CPA memo, end-to-end payout and withholding unit tests

Status: Open

Source / reference: <https://www.irs.gov/publications/p515>

Sanctions

Implementation requirement: Implement list-screening and beneficial owner/routing review; avoid broad nationality bans

Dependency: Compliance policy

Evidence / completion test: Screening vendor UAT, match resolution SOP, periodic update

Status: Open

Source / reference: <https://ofac.treasury.gov/faqs/all-faqs>

Country pilot

Implementation requirement: Get local counsel opinion and regulator/transfer approvals where needed for EACH activated country

Dependency: All 16 gates

Evidence / completion test: Country Register shows ACTIVE only after signed approval

Status: Open

Source / reference: <https://www.odpc.go.ke/faqs/>

Buyer global

Implementation requirement: Review GDPR/UK/other market targeting; checkout, returns, buyer rights and licensing

Dependency: Buyer market strategy

Evidence / completion test: Market-specific buyer overlay signoff

Status: Open

Source / reference: https://www.edpb.europa.eu/our-work-tools/our-documents/guidelines/guidelines-32018-territorial-scope-gdpr-article-3-version_en

Document note: This PDF is a print-friendly presentation of the workbook's content, not an editable replacement. Use the accompanying XLSX for live gate tracking, formulas, sign-offs and status updates.
